

Our use of cookies

What is a cookie?

A cookie is a piece of information stored in a small file which is sent to and from web pages. They can be used to identify that you've visited websites before and some will be stored on your computer by your web browser. More information about cookies can be found on the Information Commissioner's website here: <https://ico.org.uk/for-the-public/online/cookies/>

How do we use cookies?

We may create and access cookies and/or tracking tags to understand how you use our website and to help us improve the experience our website delivers. Here are some of the ways in which we may use cookies and tags:

- Analytical and performance cookies: for measuring how many people visit our website, which pages are most popular, how long people spend in each area and what information people are searching for.
- Functional cookies: to recognise your PC as you move around our site and make sure any information you enter is remembered the next time you visit us.

How can you manage your cookies?

Cookies are required to enable the best experience on our website and some parts of it may not operate without them. You can delete cookies at any time in your computer or change your browser settings so it blocks them altogether. More details on managing cookies can be found on the Information Commissioner's website here: <https://ico.org.uk/for-the-public/online/cookies/>
